Yes, I agree, but add Anita Pease to that list

We will never get everyone and some of these folks won't come.

If we can find a window that works for me, avivah, Erik, Rick, Marietta, and mark dyner that should be sufficient. And then others can join if they are able.
Maybe 8:30 Tuesday morning?

Avivah does that make sense?

Hey everyone,

If I don't already know you, my name is Chris Prandoni and I am the Associate Director for Natural Resources over here at CEQ. Included on this email are EPA, FWS, Commerce, and USDA representatives. Since there are a lot of new faces in town, myself included, I have spoken to either you or someone else at your agency about the desire for the Services to update the rest of the federal family on the biological opinions for chlorpyrifos, malathion, and diazinon.

The idea would be for FWS and NMFS to take about 20 minutes each to explain the status of their opinions and then open it up for questions. I know this is a quick turnaround, but ideally we could all get together at CEQ's office in Jackson Place 730 next Tuesday (7/25) or Wednesday (7/26). If you are unsure about whom within your agency to invite to this meeting, there should be someone from your agency copied on this email who can help you identify the correct people to coordinate with.

Since there are a lot of moving parts, whenever an agency identifies a window that works for their team, feel free to propose that time or window to the group. Of course feel free to call me with any questions you may have. **Ex. 6 - Personal Privacy**

Thank you very much; look forward to working with all of you.
